

ARBITRUM PAD

\$ARBPAD

Whitepaper

INCUBATING & LAUNCHING ON ARBITRUM

In the rapidly expanding world of blockchain technology, the ArbitrumPad platform is poised to revolutionize the way developers build powerful new applications on the Arbitrum blockchain.

Features of Arbitrum Pad

GUARANTEED ALLOCATION

Arbitrum Pad holders receive a guaranteed allocation for upcoming projects based on their duration & number of token holdings. We also have a lottery round for small investors to give everyone a level playing field.

CURATED PROJECTS

Arbitrum Pad team individually vets all prospective projects for the launchpad. Only the best of the best make it to the public.

INCUBATION SERVICE

Exclusive access to our marketing and KOL network. Tokenomics design by Experts and creation of vesting schedule. Valuable industry connections via our advisor and extended network. Smart Contracts design, Audit & development support.

DEX & LAUNCHPAD AMALGAMATION

Through the introduction of DEX, our objective is to establish a comprehensive ecosystem that encompasses the entire project lifecycle, starting from its inception to its ultimate listing.

ARBLOCK SERVICE

The ArbLock service represents a fully decentralized solution that provides a comprehensive locking mechanism to both in-house launches and independent projects, ensuring a secure means of locking LP and tokens.

BENEFITS TO HOLDERS

The deflationary nature of \$ARBPAD, a 1% fee from sell transactions is burned, making \$ARBPAD scarce with each transaction.

STAKING BENEFITS

Locking \$ARBPAD tokens in the staking contract for longer periods earns higher allocations and staking rewards.

GOVERNANCE & DAO

As a governance token, \$ARBPAD empowers community members to vote on official proposals without any transactional or gas costs. The amount of \$ARBPAD staked determines the weight of a member's vote.

Voting is mandatory for any movement of funds from the Treasury and will be introduced for deciding the overall direction of the project as it becomes better understood by the community.

Once a proposal is approved, a DAO comprised of team members and advisors will carry out the necessary contracts and transactions to execute the decision.

DEX & LIQUIDITY FARMING

During Phase IV development we will launch our DEX on Arbitrum. Initially, we will launch with Arbitrum blockchain later integrating other chains.

In addition to the DEX, Arbitrum Pad also offers liquidity farming opportunities. This involves users providing liquidity on Arbitrum in pools of assets that are used for trading on our DEX. In exchange for providing liquidity, users receive a share of the transaction fees generated by the DEX along with \$ARBPAD token as Airdrop(slow release). This incentivizes users to provide liquidity and contributes to the overall liquidity and health of the platform.

Overall, Arbitrum Pad provides a decentralized and transparent way for users to trade cryptocurrencies while also offering opportunities for users to earn rewards through liquidity farming.

Deflationary Mechanism

The \$ARBPAD token has a deflationary mechanism and it helps the token to get high demand and we can see constant price growth. The main deflationary mechanisms of \$ARBPAD include a 1% fee on sell transactions (Which is burned making ArbitrumPad deflationary) and early unstaking fees of up to 20%(Not Live yet, Coming in V2). To encourage community buy there is no fee on buy orders.

Token features

DISTRIBUTION OF FEES

SELL

- 1% of the fees to be burned

BUY

- There is no fee (incentive for being team #ArbitrumPad)

EARLY UNSTAKING FEE (V2)

- This feature is not live now as of 17th March
- An option for early unstaking will be available, with a 20% burn fee applied. (Coming in V2)
- A cooling period of 7 days is applicable for every unstaking.
- There will be no fee charged after the 7 days cooling period has passed.
- There will be a 7-days cooling period following unstake.

PRESALE

TOKEN SALES & IDOs:

The major deflationary techniques of Arbitrum Pad include a 1% fee on all token sells (sell orders) and early unstaking fees of up to 20% (Not Live yet, Coming in V2). A cooling period of 7 days is applicable on unstaking.

LOW INITIAL MARKET CAP!

Arbitrum Pad will launch with a market cap of under : \$ 279K*

PARTICIPATION REQUIREMENTS

To participate in IDO, you must stake your \$ARBPAD at least 6 hours before the event begins.

UPCOMING IDO & TOKEN INFORMATION

Information about the IDO will be released very soon; keep following our socials and stay informed.

Total Supply : 1,000,000,000

Initial Market Cap: \$ 279K (Excluding Liquidity)

The presale price of \$ARBPAD Token is: \$ 0.00083

Contract: 0x2a35c341f4dcf2d18e0fb38e0df50e8a47af1368

Token Sale Platforms: Arbitrum Pad

ROADMAP

Phase 1

- \$ARBPAD Tokenomics Design
- ArbitrumPad SC development
- Launchpad Development

Phase 2

- Token deployment & Audit
- Launchpad Release & IDO
- DEX Listing

Phase 3

- Marketing & Partnerships
- CMC/CG listing
- Staking platform development

Phase 4

- 1st Project on launchpad
- DEX Development
- Staking Platform Live
- Governance & DAO

Phase 5

- DEX Launch
- ArbLock Development
- Listing on Centralized Exchanges

Phase 6

- Multi-Chain Offerings
- ArbLock Live
- Support for more chains

ARBITRUM PAD TIER SYSTEM

Arbitrum Pad will have a three-tiered staking structure for IDO participation

ARB BRONZE

0.5 M \$ARBPAD
Pool weight: 10

ARB SILVER

1 M \$ARBPAD
Pool weight: 10

ARB GOLD

3 M \$ARBPAD
Pool weight: 25

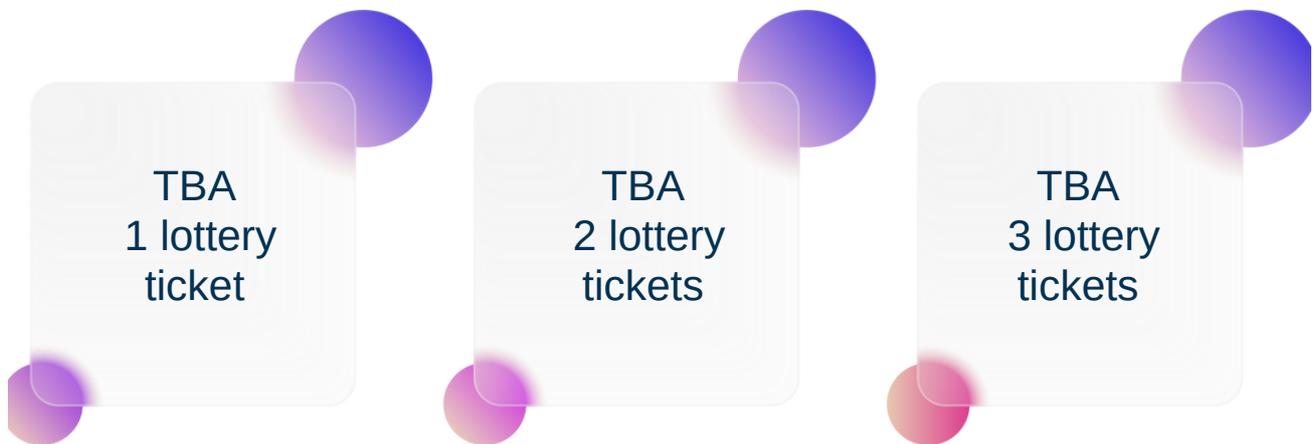

ARB PLATINUM

5 M \$ARBPAD
Pool weight: 60

- The ARB SILVER tier is for small investors, where whitelisting will be required to get into the Public Sale.
- On contrary, the ARB GOLD and ARB PLATINUM Tier holders will not have to go through any whitelisting.
- ARB PLATINUM, As the most exclusive tier, members will have the distinct privilege of receiving Airdrops and NFT drops at regular intervals, thanks to our partnerships with upcoming ventures and incoming projects.

ARBITRUM PAD LOTTERY SYSTEM (COMING SOON)

The Arbitrum Pad Lottery Tier enables the small investors to take part in early investments of Arbitrum Pad filtered projects. The Lottery System goes as:

Why Arbitrum Pad? (For projects fundraise)

The projects selected to list on Arbitrum Pad will not only be helped by fundraising and also provide various other services for the project growth and support them rigorously.

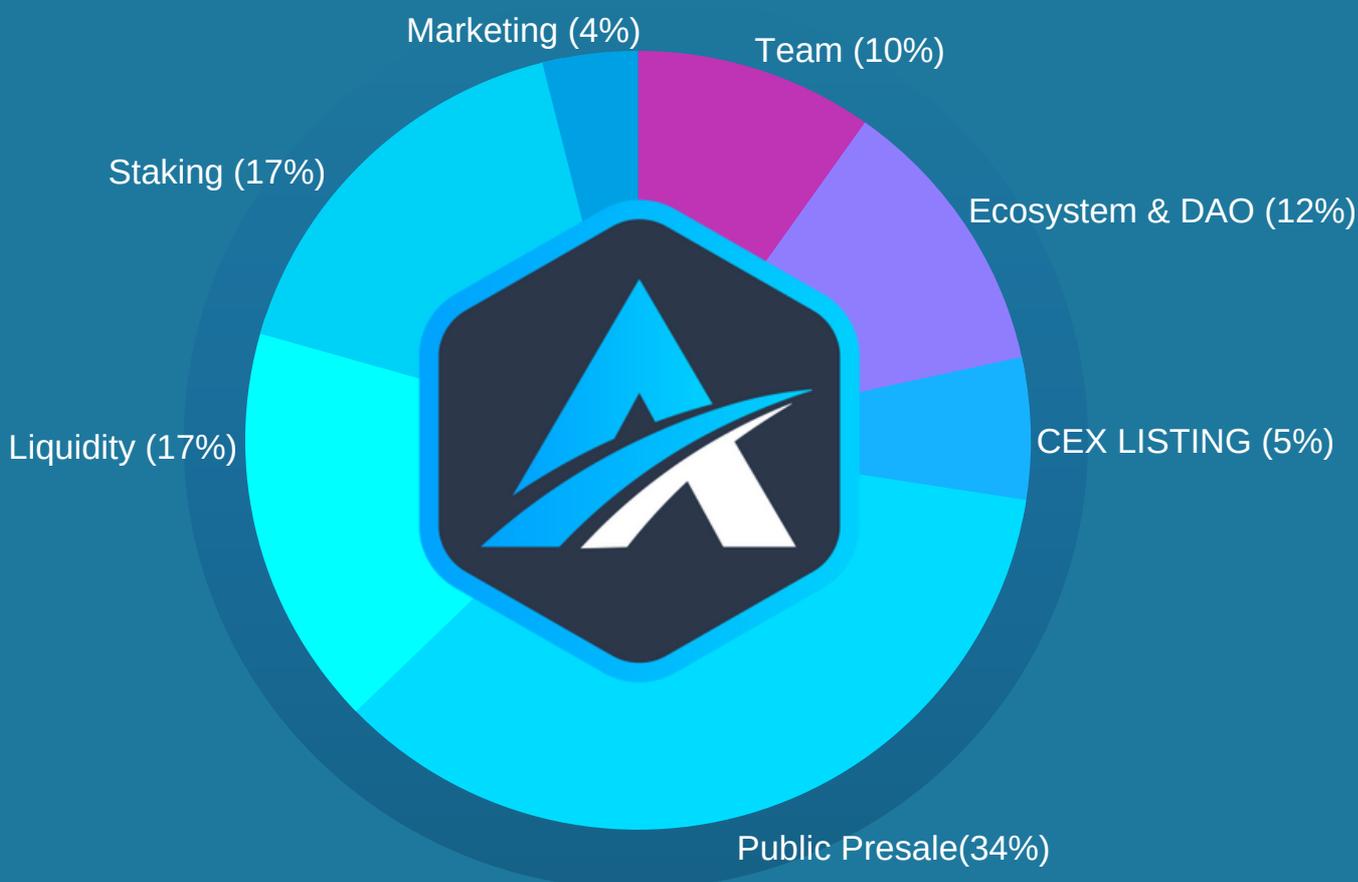

Projects will have access to

- Exclusive access to our marketing and KOL network
- Exclusive access to our IDO platforms for the ultimate launch
- Tokenomics design by Experts and creation of vesting schedule
- Valuable industry connections via our advisor and extended network
- Smart Contract design & development support
- Design, video & listing support
- Through the introduction of DEX, our objective is to establish a comprehensive ecosystem that encompasses the entire project lifecycle, starting from its inception to its ultimate listing.

\$ARBPAD TOKEN ECONOMICS

TEAM	10%
ECOSYSTEM & DAO	12%
CEX LISTING	6%
PUBLIC PRESALE	34%
LIQUIDITY	17%
STAKING	17%
MARKETING	4%
